

## WILLARD ELEMENTARY (K-5)

301 S. Madre Street  
Pasadena, CA 91107

(626) 793-6163

Year Built: 1922

Site Acreage: 6.00

Grade Levels: K-5

Enrollment: 627

Permanent Capacity: 725

Classrooms:

Permanent: 29

Portables: 9

### Assessment Summary:

Willard Elementary School is another district facility in relatively good condition. Its immediate needs include, most importantly, the creation of a turf playing field on its northwest corner. Construction of such a field would necessitate demolition of the old and dilapidated Building 'E'.

A key feature of this school is its attractive and historically significant architectural style which merits district attention to upgrading of its exterior facades, including overall re-painting as well as replacement of its wood windows while maintaining the buildings historical integrity.

Among other immediate needs are electrical upgrades for the Main Building A; addition of fire alarm devices in classrooms, offices, and circulation spaces; and the replacement and separation of water meters. Secondary concerns address provision of adequate lighting at staff and visitor parking areas; provision of a restroom in the Teacher's Lounge; and replacement of ball back walls and baseball field back-stops.
